Company Profile

Kohinoor Energy Limited (KEL) is a joint venture of Saigols Group of Companies (a well-known multi-industrial group of Pakistan) and Toyota Tsusho Corporation (an eminent consortium of multi-industrial undertakings of Japan).

The main equipment at power complex includes eight (8) WARTSILA Diesel 18V46 Type Diesel Generators, Steam Turbine and three (3) ABB 63 MVA Step-Up Transformers converting the Electrical Output from 11 kV to 132 kV

The principal activities of the Company is to own, operate and maintain a furnace oil power station with the net capacity of 124 MW.

KEL has an exclusive 30-years Power Purchase Agreement (PPA) with WAPDA (the power purchaser) & an exclusive 30-years Fuel Supply Agreement (FSA) with Pakistan State Oil (the fuel supplier).

As a security package, KEL also entered into an Implementation Agreement (IA) with the Government of Pakistan (GOP), which guarantees performance of the power purchaser and the fuel supplier.

Sponsors' Profile

Saigols Group of Companies

Toyota Tsusho Group	36%

Shareholding Pattern

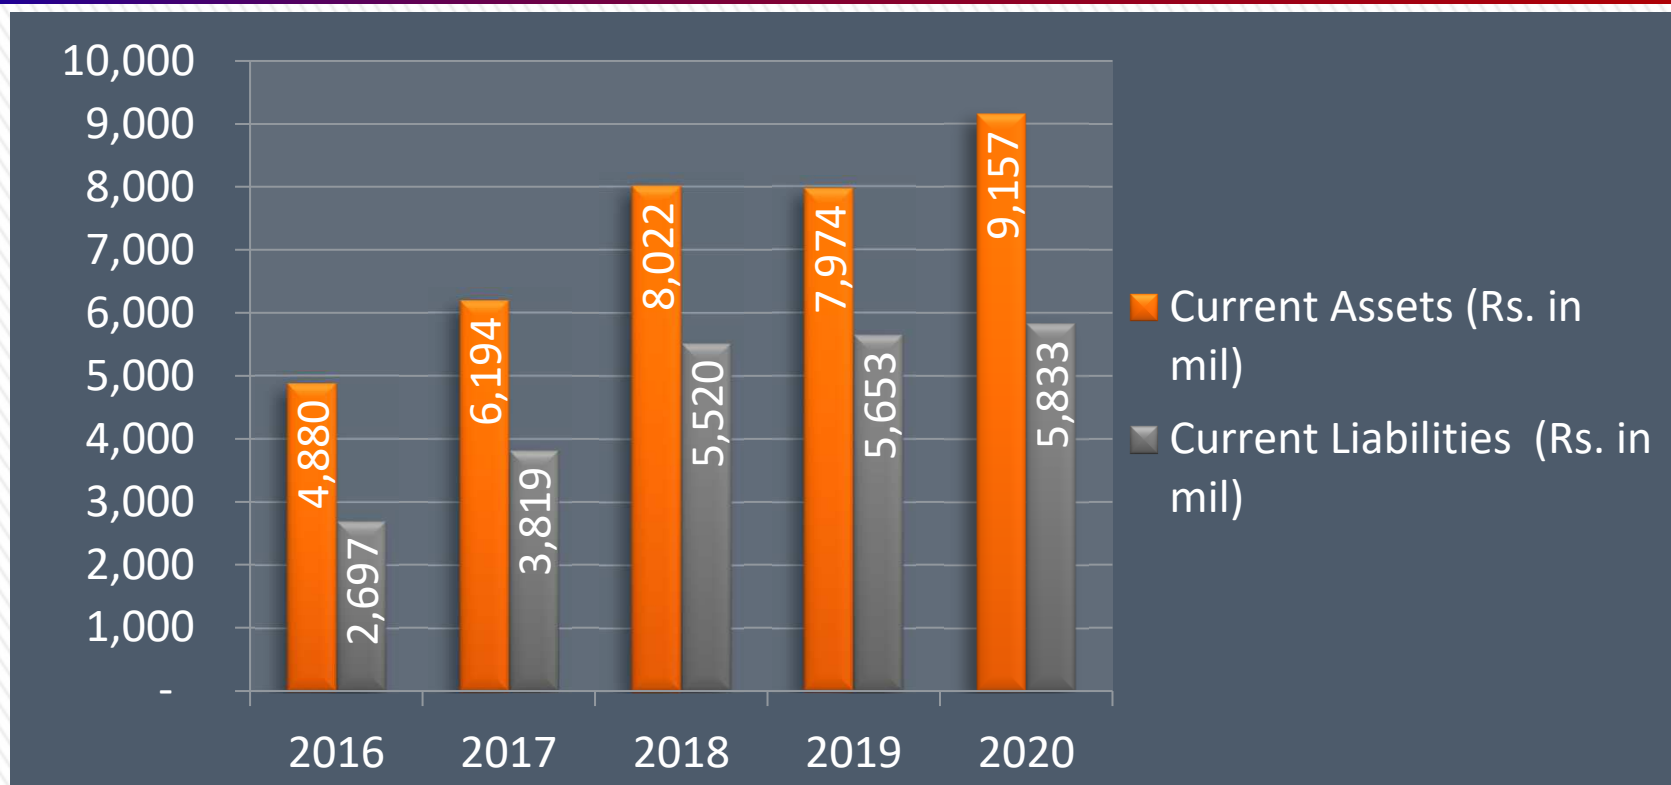

Shareholding %

Company's Strength

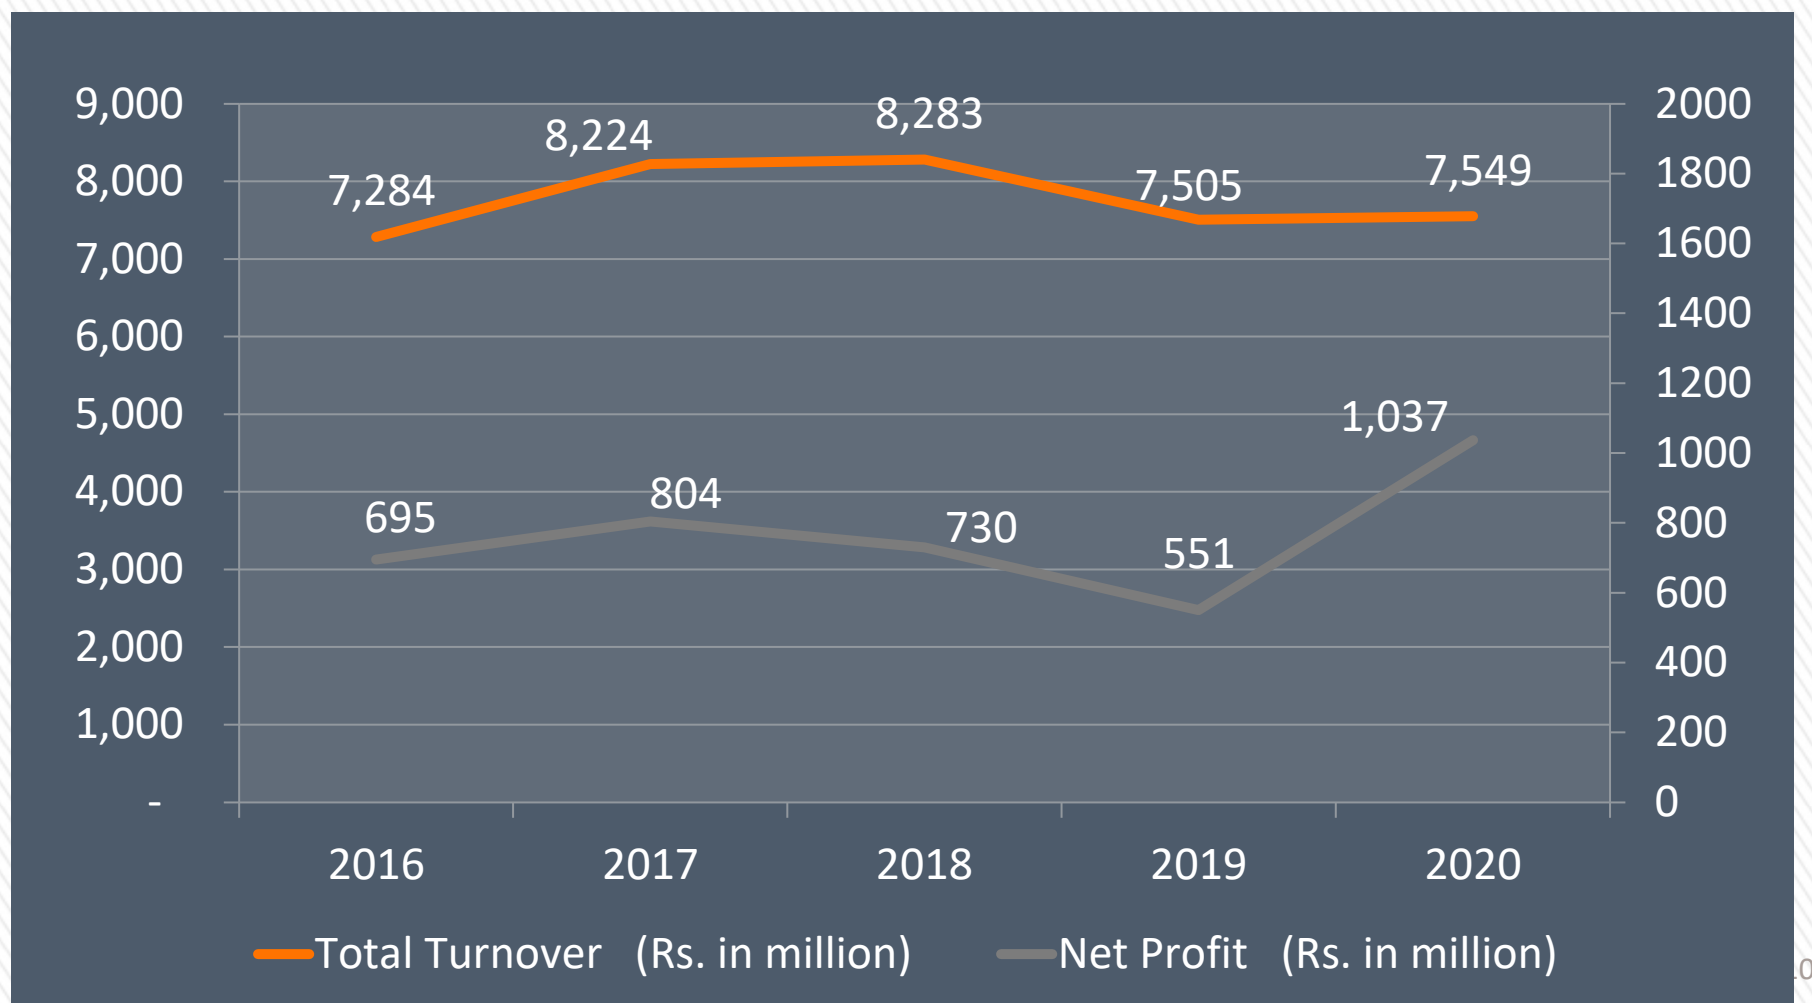

- » Under the Implementation Agreement with the GOP, performance of the Power Purchaser and the Fuel Supplier, are guaranteed.
- » KEL, in its Annual Dependable Capacity Test, has always been demonstrating its capacity more than the contractual obligation i.e. 124 MW.
- » KEL is a debt free company, as it has completely repaid, all of its long term debts.

Liquidity Position

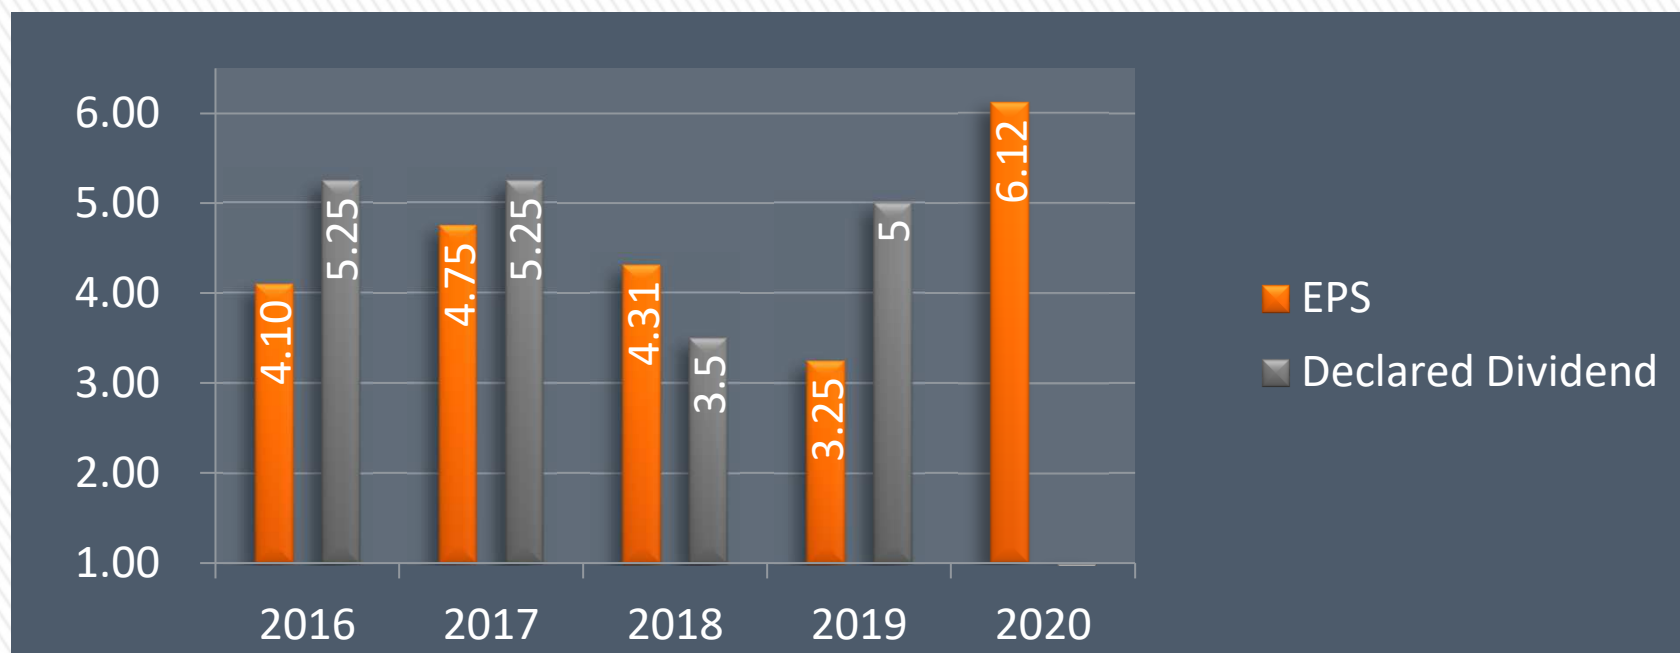

KEL has an ample margin of current assets over current liabilities. To manage the impact of the circular debt, KEL maintained adequate levels of working capital lines to strengthen the liquidity position. As at June 30, 2020, the current assets and current liabilities includes trade debts and borrowings Rs. 8,036 m and Rs. 5,390 m respectively.

Turnover / Net Profit of last 5 years

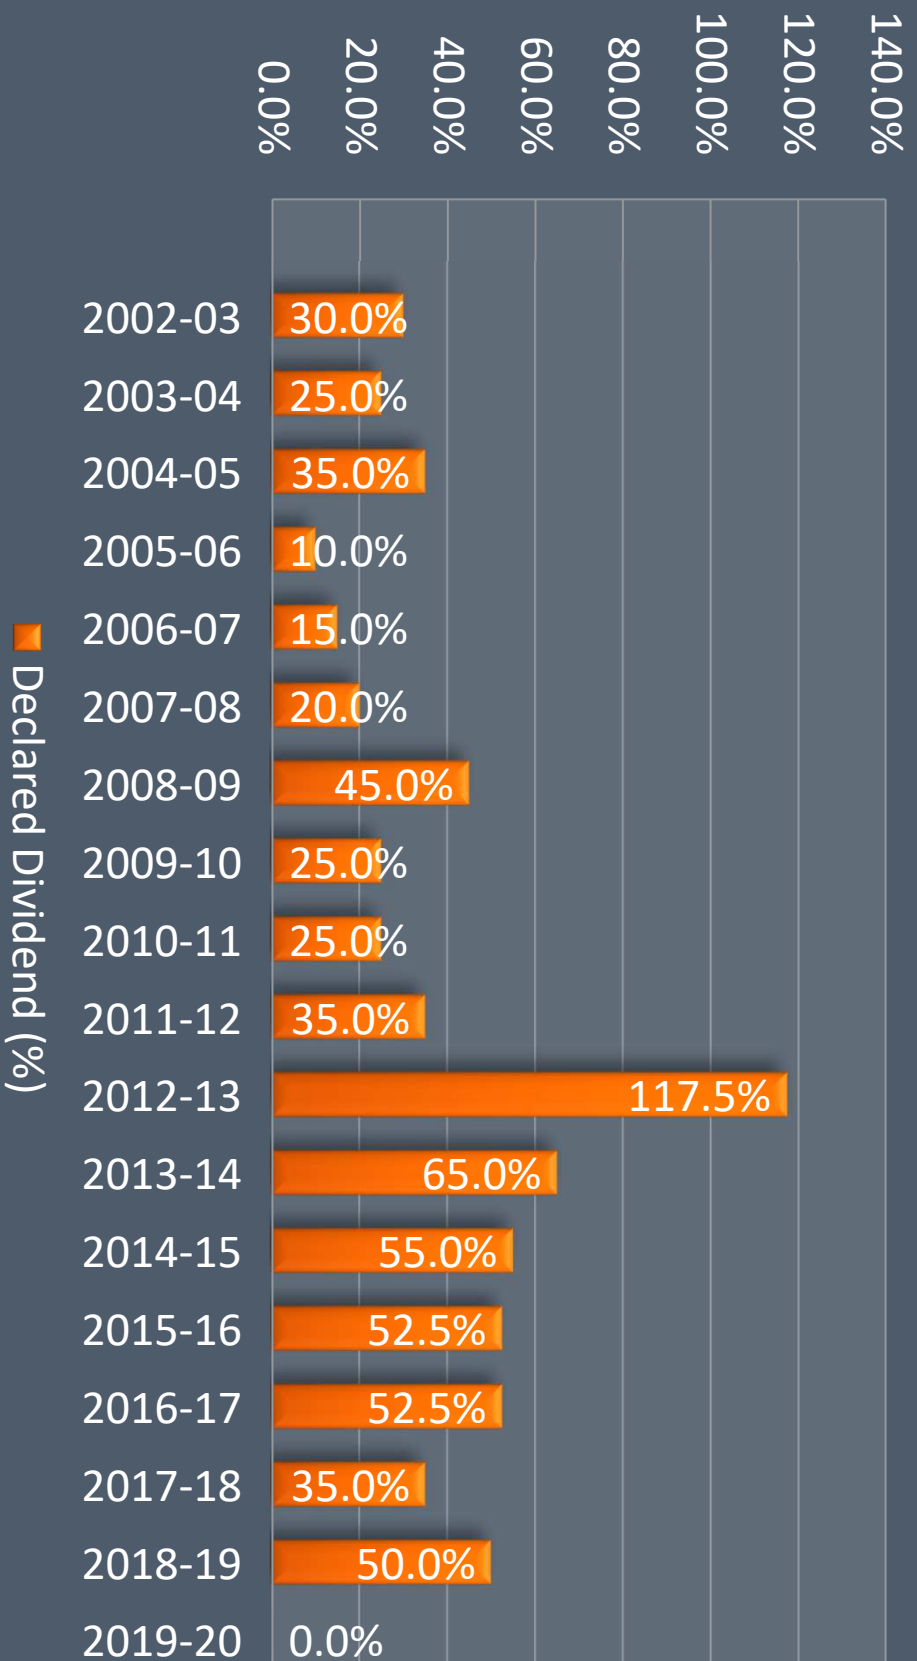

Earning Per Share (EPS) and dividends declared for last 5 years – Rs. / share

Due to the prevailing uncertainty because of current pandemic situation of COVID 19, the Company preferred not to declare dividend in current financial year rather focused on availability of sufficient cash flows for meeting the operating requirement of the Power Plant.

Overall Dividend Payout History

To date KEL have paid accumulated dividend of Rs. 69.25

Challenges

- » **Circular Debt**
- » **Lower despatches**

CSR – Corporate Social Responsibility

Free Medical Facility

KEL is providing free medical treatment facilities to the people residing in the vicinity areas of the power plant. A qualified and experienced medical team is serving the people with passion and devotion. During the year ended June 30, 2020, 8,820 patients have been provided free medical care.

Free Education Facility

KEL is helping the deserving children of nearby community to get education by bearing their educational expenses. We believe that such contribution to the under privileged society is playing an important role in uplifting the living standard of our neighboring community. During the year ended June 30, 2020, 103 students were provided free education in Secondary School Education & 11 students were provided free education in Higher Secondary School Education.
